W. M. Keck Foundation: Grant Programs in Medical Research and Science & Engineering

****PLEASE NOTE: ONLY ONE (1) PROPOSAL FROM TUFTS MAY BE SUBMITTED PER PROGRAM ****

DEADLINES:
Tufts Internal ‘Email of Intent’ Deadline: Friday, September 4, 2015 by 5pm
Sponsor Deadline: Phase I application November 1, 2015 – 4:30pm

PROGRAM INFORMATION: Tufts may nominate one candidate for the W.M. Keck Foundation Medical Research Program and one candidate for the Science and Engineering Program for the November 1, 2015 deadline.

The Research Program seeks to benefit humanity by supporting projects in two specific areas (1) medical research and (2) science and engineering, that are distinctive and novel in their approach, question the prevailing paradigm, or have the potential to break open new territory in their field. Past grants have been awarded to major universities, independent research institutions, and medical schools to support pioneering biological and physical science research and engineering, including the development of promising new technologies, instrumentation, or methodologies. Historically grants range from $500,000 to $5 million, and are typically $2 million or less.

For those interested:
Please send an email of intent to the Limited Submissions Team at limitedsubmissions@tufts.edu informing us of an intention to apply. EOI’s received after the deadline will not be considered. The email of intent needs to include:

1. The name of the solicitation,
2. The name of the Principal Investigator, and any co-PI's,
3. The CV of all research team members
4. The subject or title of the proposed project, and
5. An appropriately detailed description of no more than 500 words outlining the proposal.
