4. The subject or title of the proposed project, and
5. An appropriately detailed description of no more than 500 words outlining the proposal.

If the number of PIs interested is greater than one, the Office of the Vice Provost for Research will initiate an internal review process.

PROGRAM INFORMATION:  The Mary Kay Foundation focuses on funding research for innovative grants for translational research in ovarian, uterine, breast or cervical cancer.  Translational research is broadly defined as research that will provide a scientific link between laboratory research and the clinic.  Ultimately, such research would lead to improvement in diagnosis, prognosis, prevention or treatment of cancer.

AWARD INFORMATION:  The program will offer between ten to fifteen grants.  The awards will be up to $100,000 each (combined direct and indirect costs).  If indirect costs are requested, they cannot exceed 15 percent. The grant period is for two years.
