Online training

Advancing Your Scientific Presentations

Experts in scientific presentations
10 experts in scientific presentations including researchers and professionals such as the Editor in Chief of *Nature*, renowned presentation designers & trainers and experts in narrative tools.

~7—8 hours learning
Researchers learn in 4 modules how to improve the quality of their peer-to-peer scientific presentations with both virtual and face-to face audiences.

Designed for busy researchers
The modules contain bite-size lessons to provide an accessible, dip in and out format for busy researchers.

The course is divided into four parts; researchers can track their progress through the course and fit the lessons around their work.

1. Overcoming your research presentation challenges
2. Developing the story behind your talk
3. Building an engaging slide deck
4. Preparing and navigating your talk
Online training: Advancing Your Scientific Presentations

Insight from expert academics and professionals

This course contains insights from experts with a wide range of experience, including:

- Delivering compelling presentations to audiences of scientific peers
- Using narrative techniques when communicating research
- Designing slide decks to support and enhance presentations
- Training researchers how to deliver scientific presentations in a clear and engaging manner

Learning outcomes for researchers

- Identify techniques that can help to overcome the challenges commonly experienced when delivering oral presentations
- Learn how to build compelling research stories to use as the foundation for your presentations
- Learn how to create professional slide decks that effectively communicate research findings to your audience
- Learn how to apply strategies to help you deliver your presentation effectively on the day, in both virtual and face-to-face environments

Benefits for institutions

- Increase the visibility of your researchers by ensuring they deliver convincing and memorable presentations
- Enhance the reputation of your institution by ensuring that the research outcomes are disseminated effectively
- Support the professional and career development of your researchers while saving staff time on mentoring and training in presentation skills
