

Future of Data Studies at Tufts University

Office of the Vice Provost for Research

Presents

Dana Randall, PhD

Co-Executive Director, Institute for Data Engineering and Science & ADVANCE Professor of Computing, Georgia Institute of Technology

Dr. Dana Randall, Co-Executive Director of the Institute for Data Engineering and Science, is the ADVANCE Professor of Computing and is an Adjunct Professor of Mathematics at the Georgia Institute of Technology. Dr. Randall received her PhD in computer science from the University of California at Berkeley. Her research in randomized algorithms and stochastic processes bridges computer science, discrete mathematics and statistical physics. She currently co-leads the Georgia Tech Strategic Initiative in Data Science.

Dr. Randall is a fellow of the American Mathematical Society (AMS), a National Associate of the National Academies, as well as a former Sloan fellow and NSF Career Award recipient. Dr. Randall was the Program Chair for the SIAM Symposium on Discrete Algorithms in 2011 and the SIAM Conference on Discrete Mathematics in 2016, and was previously Director of the Algorithms and Randomness Center at Georgia Tech.
