Limited Submissions

LIMITED SUBMISSION: Harry J Lloyd Charitable Trust - Melanoma Research Grants

****PLEASE NOTE: THREE (3) PROPOSALS FROM TUFTS MAY BE NOMINATED, ONE IN EACH OF THE THREE (3) AREAS****

DEADLINES:
Tufts Internal Email of Intent Deadline: August 6 by noon
Sponsor Deadline: November 1

For those interested, please send an email of intent to the Limited Submissions Team at limitedsubmissions@tufts.edu informing us of an intention to apply. EOI’s received after the deadline will not be considered. The email of intent must include:

1. The name of the solicitation,
2. The name of the track to which you intend to apply (Career Development, Basic Science, Translational Research),
3. The name of the Principal Investigator, and any co-PI's,
4. A 2-3 sentence description of the proposed project.

Should the number of interested applicants exceed the number allowed by the funder, an internal selection process will be conducted by the Office of the Vice Provost for Research, and candidates will be notified to submit internal application materials. All candidates will be notified of results. NB: Successful applications must include official notification from the Limited Submissions Team in order to submit. For more information, please see http://viceprovost.tufts.edu/resources/funding/limited-submissions/

PROGRAM PURPOSE:
• To support melanoma research, with a special focus on screening and prevention; awarded in one of three areas:
  o Career Development: May include salary support for promising young melanoma investigators
  o Basic Science: To gain new biological insights into melanoma development or progression
  o Translational Research: To fund clinically important melanoma research

PROGRAM REQUIREMENTS:
• Special consideration will be given in three areas: 1) emerging novel concepts that constitute significant innovation, 2) new investigators in the field of melanoma, and 3) prevention and early detection.
• An adequate discussion of biostatistics is required, including but not limited to specification of numbers of cell lines, laboratory animals, or patients to be treated in the studies.
• Plans for adjustment for multiple looks should be presented, particularly regarding clinical endpoints and evaluation of multiple biomarkers.
• Use of animals in research must be fully justified; prior approval is required for use of transgenic animal models that include human genes inserted into the germ line; embryonic or fetal cell tissue cannot be used

ELIGIBILITY: No agency restrictions; please follow Tufts PI eligibility policies

AWARD INFORMATION: $125,000, one-year grant. No indirect costs allowed.
