## LIMITED SUBMISSION: NSF Cultivating Cultures for Ethical STEM

**\*\*\*\*PLEASE NOTE: THIS ANNOUNCEMENT IS TO GIVE INTERESTED RESEARCHERS THE OPPORTUNITY TO DEVELOP TEAMS AND EXPLORE THE POSSIBILITY OF SUBMITTING AN NRT FOR NEXT YEAR. THE OFFICIAL LIMITED SUBMISSION COMPETITION WILL BE HELD IN THE FALL\*\*\*\***

### DEADLINES:

**Tufts Internal Email of Intent Deadline:** *No current deadline.* Limited submission competition will be announced this fall. Please contact the Limited Submissions Team at [limitedsubmissions@tufts.edu](mailto:limitedsubmissions@tufts.edu) with any questions.

**Sponsor Deadline:** February 22, 2019

When the limited submission competition is officially announced, please send an **email of intent** to the Limited Submissions Team at [limitedsubmissions@tufts.edu](mailto:limitedsubmissions@tufts.edu) informing us of an intention to apply. EOIs received after the deadline will not be considered. The email of intent must include:

1. *The name of the solicitation,*
2. *The name of the Principal Investigator, and any co-PI's,*
3. *A 2-3 sentence description of the proposed project.*

Should the number of interested applicants exceed the number allowed by the funder, an internal selection process will be conducted by the Office of the Vice Provost for Research, and candidates will be notified to submit internal application materials. All candidates will be notified of results. NB: Successful applications must include official notification from the Limited Submissions Team in order to submit. For more information, please see <http://viceprovost.tufts.edu/resources/funding/limited-submissions/>

### PROGRAM PURPOSE:

- Proposals should address the question 'What constitutes responsible conduct for research (RCR), and which cultural and institutional contexts promote ethical STEM research and practice and why?'
- Programs should identify 1) factors that are effective in the formation of ethical STEM researchers, and 2) approaches to developing those factors in all the fields of science and engineering that NSF supports

### PROGRAM REQUIREMENTS:

- Successful proposals typically have a comparative dimension, either between or within institutional settings that differ along these or among other factors or over time (i.e., before and after an intervention for Institutional Transformation Research Grants), and they specify plans for developing interventions that promote the effectiveness of identified factors
- Projects should use basic research to produce knowledge about what constitutes or promotes responsible or irresponsible conduct of research, and how to best instill students with this knowledge

**ELIGIBILITY:** Project teams should include persons with appropriate expertise, such as experience in the domains of science or engineering on which the project focuses, in ethics, values, evaluation, or pedagogy. Please follow [Tufts PI eligibility policies](#).

**AWARD INFORMATION:** Grants will be awarded for three- or five-year periods. Five-year awards may receive up to \$600,000 in total costs, and three-year awards up to \$400,000

**FURTHER INFORMATION:** <https://www.nsf.gov/pubs/2018/nsf18532/nsf18532.htm>

**NOTE:** Program announcement instructions supersede instructions delivered in this document.
