LIMITED SUBMISSION: PhRma Foundation – Pharmacology/Toxicology

****PLEASE NOTE: ONE (1) PROPOSAL FROM TUFTS MAY BE NOMINATED****

DEADLINES:
Tufts Internal Email of Intent Deadline: May 7 by noon
Sponsor Deadline: September 1, 2019

For those interested, please send an email of intent to the Limited Submissions Team at limitedsubmissions@tufts.edu informing us of an intention to apply. EOI’s received after the deadline will not be considered. The email of intent must include:

1. The name of the solicitation,
2. The name of the Principal Investigator,
3. A 2-3 sentence description of the proposed project.

Should the number of interested applicants exceed the number allowed by the funder, an internal selection process will be conducted by the Office of the Vice Provost for Research, and candidates will be notified to submit internal application materials. All candidates will be notified of results. NB: Successful applications must include official notification from the Limited Submissions Team in order to submit. For more information, please see http://viceprovost.tufts.edu/resources/funding/limited-submissions/

PROGRAM PURPOSE:
- This award provides support for students in advanced stages of training and thesis research in pharmacology or toxicology, and to encourage multidisciplinary training to apply the perspectives of molecular, cell, and systems biology to pharmacology and toxicology research.

PROGRAM REQUIREMENTS:
- Research should integrate information on molecular or cellular mechanisms of action with information on the effects of an agent observed in an intact organism, in experimental animal or clinical studies or both.
- Proposals must be justified by research related needs and contribute to long-term goals of Non-Human Primate (NHP) facilities
- Highest priority will be given to applicants whose research will attempt to integrate information on a drug or chemical’s mechanism of action at the molecular or cellular level with a drug’s effect in a human or laboratory animal.
- Applicants should describe the significance of a hypothesis being tested in the context of potential influences of biochemical, physiological, behavioral, or social systems.

ELIGIBILITY: Applicants must be full-time, in residence pharmacology or toxicology students enrolled in schools of medicine, pharmacy, public health, dentistry or veterinary medicine. Eligible candidates will have completed most of their pre-thesis requirements (at least two years of study) and be engaged in thesis research as PhD candidates by the time the award is activated; please follow Tufts PI eligibility policies.

AWARD INFORMATION: $20,000 in stipend support per year up to two years.

NOTE: Program announcement instructions supersede instructions delivered in this document.
